

FREE BARE ROOT SEEDLINGS!

Start growing your communities' trees today from bare root seedlings! The Lower Elkhorn Natural Resources District (LENRD) is offering the program to communities interested in starting their own tree nursery by planting FREE bare root seedlings provided by the LENRD. Sign up for the program in the fall and pick up your seedlings in the spring! It's that easy!

To Sign up for the *Bare Root Seedling Community Nursery Program*, you need to do the following:

1. You can email, fax or mail this pamphlet back to the Lower Elkhorn NRD and fill out the following

Community/Organization: _____

These varieties are subject to change depending on availability.

Bare Root Seedlings ready to be planted

NOT JUST A ONE YEAR DEAL!

This program will be available for years to come! If you don't think you can have a site ready by next year for the nursery, go ahead and wait till the next year to join in!

Also, you don't have to get trees every year! If you have more than enough trees to worry about, skip a year and try again the following year for some more trees. You need to remember that these seedlings are just babies and will take some time and attention to get them growing.

HELP IS AVAILABLE!

If you need help designing your Community Tree Nursery site, just contact the Lower Elkhorn Natural Resources District. We can help you locate the

optimal site for your nursery, what to do for site preparation, and talk about spacing within the rows and between the rows.

Bare Root Seedlings can grow into wonderful shade trees, street trees, or specimen trees for your community.
